Market Garden)

2009 Theme: "Healthy Bodies, Healthy Earth...  
10 Years of Earth Day at the Garden"

**This year we focus on how the healthy lifestyles choices we make for ourselves can also better the health of the earth. A culture addicted to petroleum and toxic chemicals is like a person addicted to unhealthy foods or drugs. Let's think of ways to creatively change our lifestyles...that way we'll be healthier - and so will the earth!**
